Americans in Capital in Danger---Truce Violated---Mexicans Uniting.

(By Times Special Wire)
Washington, April 22---A complete change in the plan of military campaign in Mexico may be necessitated by the menacing attitude of the Constitutionalists, who are under command by the joint board of army and navy, and the severance of the two military departments indicated upon the belief that the constitutionalists would observe a code of strict neutrality during the settlement of the issues between the United States Government and General Carranza. The Constitutionalists are in rapid retreat, and are moving to the north, as far as El Paso, where owing to the diversion of a large proportion of the American garrison to other points, the 5,000 Mexican Indians

are to meet possible small local disturbances. Late reports, however, from Counter Agent Cartwright indicate growing turbulence and the development of a civil war in the northern portion of Chiapas, where many Americans have elected to remain in charge of their own business interests, and in disregard of preceding warnings from the U. S. consul officers, relying upon the supposed neutrality of the Constitutionalists.

A dangerous situation is developing rapidly at El Paso, where owing to the diversion of a large proportion of the American garrison to other points, the 5,000 Mexican Indians

EX-CONTROLLER'S TALK
AMOUNTED TO NOTHINGBird Appeared Before
Board To-day.Left Controllers None
the Wiser.

In response to the letter of the secretary, ex-Controller Bird called to the Board of Control from this morning to give his views and other members of the board knew about only a few. After talking half an hour to say what had been said a hundred times or more in the city hall during the last few months, the ex-controller held his tongue. He may have been surprised, and he may have been mystified at first. There was absolutely nothing, as far as the controllers could see, to the all charged. No names were mentioned, and the member declared that he would not date either what had been told to him or to his home by those complaining about the constitutional service. No action was taken.

When ex-Controller Bird put in an appearance, Mayor Allan said: "Mr. Bird, it appeared in the papers a few days ago that you had stated that you had got somebody in jail for having their hands in the city coffers. This took action last Tuesday, inquiring the reason, and when you came to appear before it, it was nice to know if anything such you may know along this line, will investigate and either prosecute or let it go." The controller said: "Today being my birthday," I thought I might as well open the envelope. The letter I received from the board last night, he said in my first place that I did not say that there were no hands in the city coffers. Whether they are true or not, I say I am prepared to investigate these charges, but I will not make any notes on them, and here we have no make known what they have told me. I think that any information I should receive I must admit that when I got this letter. It might have asked for a few minutes, but I did not want to show to what I will act and will help all I can to aid the committee.

Today Cooper here remarked that investigating committee was going to look into the question of improvements and not the graft. He said: "I am a man of the people, and I want to see that people are true or not, and that they are not grafting very much, but the people that come here to the other. We would be very sorry if anybody would come here to the other. We would be very sorry if there was no chance to defend their graft." There go around talking the other. We would be very sorry if anybody would come here to the other. We would be very sorry if there was no chance to defend their graft."

"I think all look honest, and are generally observed ex-controller. I am a man of the people, and that more, I want to see that people are true or not, and that they are not grafting very much, but the people that come here to the other. We would be very sorry if anybody would come here to the other. We would be very sorry if there was no chance to defend their graft."

POWERS PLEAD
WITH HUERTA

(By Times Special Wire)
New York, April 23---A cable to the Tribune from Rome says:

The Pope has sent a cable dispatch to the Apostolic Delegate in Mexico, instructing him to ask President Huerta to yield to the demands of the United States to avert further bloodshed. It is understood that similar exhortations have been cable to Huerta by several foreign rulers, including at least one King, who offered his services as mediator.

The Foreign Office here has received a cable from the representatives of Austria-Hungary, Germany and Great Britain. Italy's attitude does not differ from that of the other powers.

Opposes Him.

Mayor Allan and Controller Morris had a breezy and exciting time this morning over the unemployed question. The controller, setting the ball rolling, declared that he had seen an item in a local paper to the effect that the mayor's nerves were being tickled and he couldn't sleep at night, and the controller could not sleep more than two hundred words. He felt somewhat surprised and wondered why the mayor did not put more men to work and do away with such unnecessary suffering, when, by lifting his little finger, he could have a thousand men or more in the civic employ.

The controller added: "I made it

my business to go into the Board of Works yesterday determined that if you could not find work for these men I would do my share to that end. I asked the department if there was any work that could be done, and was told that about five hundred laborers are now here. The controller is an excellent worker. The pay is \$1,489 per week, whereupon last year it was \$1,338 at this time. There are at present two two-way roads, one alley, three sewers, thirty-eight sidewalks and one bridge. The controller has paid the council and were waiting for the men to start on them. At the next council meeting there will be discussed the bill and for the increase one pavement, and six water-

(By Times Special Wire)
St. John, N. B., April 23---Before leaving for Ottawa last evening, G. B. Carroll, M. P., who has taken the Liberal charge made in the New Brunswick Legislature, said: "If the language is free and fair, we must assume that it will be, we will prove the collection and payment of the timber taxes in the timber districts in the United States." Upon this, Carranza, in the House we must assume that the commission will be on lines that will command the confidence of the people. If it is not, the inspection is fair and fair, we shall be satisfied. We are equally confident we can prove the Valley Railway charges."

Archbishop Hamilton Re-
considers Decision.

Would Inconvenience Affairs of the Province.

Hamilton will be glad to learn that Most Rev. Charles Hamilton, formerly of Hamilton, Archbishop of Ottawa, and Metropolitan of the Ecclesiastical Province of Ontario, has reconsidered the decision he made some weeks ago to resign on the strength of the谷铁路 charges.

Hamilton was induced to reconsider his attitude in this respect, because of inconveniences which would arise in connection with the administration of his diocese.

Hamilton will remain in office for a few weeks at any rate, but he will no longer be in the diocese, he has been asked to withdraw from his desire to withdraw from the office.

CITY'S LETTER

What Mayor Will Say to
Old Country Editors.

The following is a copy of the letter which Mayor Allan will send to old country papers to prevent immigrants from coming to this city, excepting to find any amount of work.

The Editor:

My attention has been called to an article in one of the leading newspapers of Great Britain, naming Hamilton Ontario as the city which is creating very much, but the reason that people will not come to this city is that we have no laborers coming here, the winter months are very cold, and it is wrong to misinform the people of the old land of the manner in which the people are living, but like most Canadian cities has little out-of-door work during the winter months.

Hamilton, like most Canadian cities, has little out-of-door work during the winter months, and that more, because the laborers coming here depending on outside work should be told to make provision for the winter months, and state that these things are not true, and that we have no laborers coming here, the winter months are very cold, and it is wrong to misinform the people of the old land of the manner in which the people are living, but like most Canadian cities has little out-of-door work during the winter months.

THIS LOOKS LIKE A SCHEME
TO BURKE INVESTIGATIONMay Prevent Robson Report From Being Dealt With by the City
Council To-morrow Afternoon.

A storm of protest from unexpected sources will be heard at the special meeting of the Council to-morrow to consider the committee's report on the investigation committee under the chairmanship of Sir John G. Robson, according to the announcement to-day at the city hall by Al. Wm. Burrell, chairman of the Board of Works, and also a member of the committee making the inquiry into the present system of the department. The report, to be presented to the city to-day as a class, will last about five minutes, or less. The trouble is all over the failure of Chairman Robson to get the support of all the members of his committee to his plan in asking the Mayor for a special Council meeting. Chairman Burrell claimed to-day that the whole affair was put through without the knowledge being obtained of him, and added that he would demand to know to-morrow, as soon as the meeting came to order, by what right it was called. Others interested in this latest agitation declare that they will more than the whole report be sent back to Al. Wm. Burrell, commanding the committee, and that the report will be returned to him.

CARRANZA TAKES A HAND

Development in the embryo between the United States and Mexico have been steadily progressing since a small incident occurred a few days ago. The United States cannot be accused of having been in a hurry to take a hand in Mexican affairs, which have been in a deplorable state for a long time, and it was to be expected that once it did step in, there would be unexpected developments. The men of the United States, in particular, have anticipated what has happened. Having consistently refused for so long a time to be drawn into the trouble, President Wilson undoubtedly chose an inopportune time to get in. The Tampico incident, in itself, was not a particularly important intervention; in fact, it was a very lame excuse.

In rushing vessels and men to the Mexican ports President Wilson and his Cabinet entirely overlooked General Carranza. It is much easier to see a mistake after it has been made than to see it coming. There are no conditions which should have been up to the standards of the men at the head of the U. S. Department of War, and especially of the President, which were entirely overlooked. A blundering minor officer caused the arrest of a number of American blue-ackets. They were held but a short time and were released, but the affair was referred to a superior officer, and he offered what looked like an adequate apology. What followed everyone knew. President Wilson, the Cabinet, the War Department, Congress—the United States, through accredited representatives—declared that the blame was upon one man, Huerta. Now, who is Huerta? To Mexicans he is President of the defunct Mexican Republic, to the outside world he is the same. To President Wilson and the United States he is, officially, nothing. A non-entity. He has never been recognized, but has been specifically pronounced to have no standing. He is no longer than any other nonentity. Then, however, the United States, through its agents, the Mexican States, justify the acts of Vera Cruz and all the preparations for war? They blame Huerta and Huerta only for the incident which is the cause of invasion, yet declare Huerta to be a nonentity. If Huerta is not head of the Mexican Government, then who is? Doubtless General Carranza has figured out the answer. President Wilson declares that the "United States will not go to war with Mexico—we are friends of Mexico and the Mexicans." And General Carranza sees his country invaded and his people slain for a stupid blunder which was officially charged up, by the United States, against one man, whom they do not recognize.

These actions look upon the action of the United States as a violation of the national sovereignty of Mexico and asks for the withdrawal of the forces of that country from Vera Cruz, and the whole question becomes decidedly complicated. Despatches hint that the Tampico incident was prearranged by Huerta to provoke "intervention" from the United States, but bring about a consolidation of the Mexican forces, so that he could not long hope to hold power against the successful Villa and his Constitutionalists.

The claim looks very foolish, yet the union of the Federals and the Constitutionalists is now being brought about and is announced to have already taken place. Uncle Sam may have a far greater task on his hands than he bargained for.

WHY ALL THESE IDEL MEN?

Major Allan will do well to make known all over the old country the true story of the Labor Movement at least so far as it exists in Hamilton. Not in sixteen years has this city suffered as it has this past winter and as it is suffering at present through dearth of employment and the large number of men looking for work and unable to find it. But the Mayor should not be content with showing the old country the true story of coming to Canada and to Hamilton in search of work at this time. It is well known that Great Britain has been and now is comparatively prosperous. There is no scarcity of labor there, and the pity of it is that these men are enticed to leave good situations to come here to walk the streets here and work at the same.

The High Cost of Living Commission empowered to report on the high cost of living.

To judge from some of the "sited" State newspaper headlines the glory of war depends upon the number slain.

Usher was to be made to feel that she was a victim—Mad and Empire. Wrong; she was to be made to feel that vice was in her.

"Smile" is a word coined by the United States weather bureau to describe atmospheric conditions due to mixed smoke and fog.

It takes but a small and insignificant incident to arouse the war spirit, which demonstrates the greater need of eternal vigilance in the interest of peace.

It is from the Buffalo Express,

the agent's note:

just as we have been expecting: "From the military viewpoint, the capture of Vera Cruz is a brilliant exploit, and the loss is much smaller than there was every reason to expect."

A force of 3000 Irish Nationalists "to meet force with force and blow with blow" is a contingency which probably Sir Edward Carson did not contemplate when he began to inflate Ulster.

It is quite all right for the Prison Reform Commission to recommend humane treatment for prisoners. No one would desire anything else for them. But the prisoners should know that they are prisoners in punishment for crime.

The west end of Mountain Park avenue, Mount Hamilton, has been closed, so that there is no longer any outlet to Concession street by way of the Webb lane. Those living on the avenue have been compelled to go to the east end of the road to get to Concession street or walk down the Jolley Cut. This has received the talk of bridging the Webb quarry at the head of the Jolley Cut, so that direct access could be had to Mountain Park avenue from the Jolley Cut, thus forming a doorway from the cut right across the road to the city park at the extreme east end of the boulevard.

John C. Alman, in his head for something to bridge the Webb quarry between Mountain Park avenue and the Jolley Cut, so as to make the above-mentioned walk a safe and sound, even those people into a country and then let them shift for themselves. They must see that they go on the land and stay there, and those who will not stay must be deported. Why keep bringing these people over here only to have them become a burden to the citizens? They are not wanted here. The present condition of affairs is a scandal and should be remedied at once.

Let Mayor Allan, the Controllers and Council petition the two Governments to cease flooding the cities of Canada with men who can find nothing to do. The present immigration system is bringing much misery upon the people of Canada. The men of the Hamilton and other large cities in the province of having to deal with an idle floating population, entailing much expense, and making it harder for the workmen of Hamilton to make a living. We have no objections to bona fide farmers or farm servants being brought to Canada. But Canadian men in his head for something to bridge the Webb quarry between Mountain Park avenue and the Jolley Cut, so as to make the above-mentioned walk a safe and sound, even those people into a country and then let them shift for themselves. They must see that they go on the land and stay there, and those who will not stay must be deported. Why keep bringing these people over here only to have them become a burden to the citizens? As a matter of fact, imports of rail steel have been held up since the new tariff on steel became effective, have been held up before the change took place.

In February, the new rail tariff was introduced, while in February, 1913, 200 tons were imported. In January of this year, no country imported more than 100 tons.

Belgian rails are \$18 per ton at the mill, which with the ocean freight or a heavy of them start out to have a price of \$23 or \$25 per ton.

It would be \$33 or \$35 per ton if a potential never by any chance turns up within 100 days. But when a number of the railroads have a few suffragettes there is always a number of them to be the railroads' victims. One might be tempted to wish that the cases were reversed on a while.

"Can I interest you in an attachment for your typewriter?" asked the agent, as he entered the office. "No, I am not interested," replied Mr. Smith, "but I am still paying attention on the strength of the attachment I had for my last typewriter."—Cincinnati Enquirer.

POWERS HEAR FROM HUERTA

Mexico is Fighting Against
"Yankee Outrage"

AT VERA CRUZ

Entire City in Hands of U.
S. Forces.

Mexico City, April 22.—General Huerta has instructed all the foreign consuls to notify their Government that "We are fighting at Vera Cruz against the attempt to land American marines." The Cabinet decided to-night to promulgate a general amnesty, so that all Mexicans may unite in the defense of their country.

The following statement has been given out by the Mexican Foreign Minister: "Mexico is defending not only her national sovereignty, but that of all Latin-America as well. This is not a war between the Mexican and American peoples, but between Mexico and the Government of the United States, which is controlled by men who have forced the situation upon us, in spite of our efforts to the contrary. We have had 400,000 men in the field in seven days."

General Huerta also assured Charge O'Shaughnessy personally, and in the friendliest tone, that he and all Americans here would be defended against all attack.

General Huerta also makes the following declaration in El Imparcial: "In the name of the Mexican people we are uniting with the American people in the common cause against the outrage which the Yankee Government is committing against our people, as it will be, that of this republic. This action will pass on to history, which will put us and the Government of the United States each in the place where it belongs."

(Signed) "Huerta." The American Herald published a bulletin from Mr. O'Shaughnessy advising prudence for the Americans in Mexico City and conveying to the United States the following statement:

"El Imparcial publishes an official declaration of the Government calling upon the Mexican to gather around it, but, in the name of the country, 'Don't forget that the foreigners residing among us and not responsible for the situation past and not responsible for the situation created by the Mexican Government' to 'show equally good sense.'

During the French intervention in 1914 the Mexican people gave evidence of good judgment by not attacking the French who were not connected with the internal situation. The Government of Mexico expects the people to do the same now."

VERA CRUZ IN U.S. HANDS. Vera Cruz, April 22.—Six Americans

killed and about thirty wounded marked the completion of the landing at Vera Cruz at noon to-day by the United States forces.

Admiral Sims, in command of the fleet, has taken his ship, the *U.S.A.*, to the Terminal Hotel. The *U.S.A.* is strongly patrolled, but is generally to-night. Rear-Admiral Badger is now in command of the American forces, while Rear-Admiral Badger, Commander-in-Chief of the Atlantic Fleet, has left the harbor on the Minchico.

After the general advance this morning Mexican snipe on the roofs and walls were heard. There was one brief action.

The pramaster of the British cruiser *Gloucester*, Robert W. Kimber, was wounded on board his ship by a sniper's shot.

British bluejackets crowded the boats and voices could be heard cheering the American marines as they proceeded ashore for the landing.

The flags on the Essex and Forrestal were hoisted at the moment when the dead were carried to the boats.

Rear-Admiral Badger has not yet decided whether to proceed to Tampa, and it is believed his departure will be delayed. The application of this is found in the fact that the flagship has entered the harbor.

Major Stanley D. Butler, with marines, has been sent ashore to sweep up the railway for a considerable distance this afternoon.

A HOT FIGHT.

Rear-Admiral Sims ordered at 8:30 o'clock in the morning, ordered a general advance of all the towns. A general fire was opened and passed the unoccupied market place and main thoroughfare. When the smoke cleared the walls of the fortifications a terrific rifle fire was poured in all directions from the roof and the windows. The bluejackets were helped to remove the fire against the stone walls, and scattered.

The Prairie, Chester and San Francisco batteries, the 120 and 150 pounder guns and shattered the walls. The bluejackets reformed and advanced again, the fire which had diminished greatly.

By 10 o'clock there was only desultory firing from the inshore side of the fortifications. The marines had made their way along the waterfront to the southern end of the town, and had several times been driven back, but the sniping from house continued intensively.

The number of foreign refugees on board the *Esperanza* was increased to 1,000. The Americans, mostly Americans, took advantage of the hill in the fighting during the early hours to go to the safety of the vessel.

Rear-Admiral Fleets' note sent to the local officials, calling on them to co-operate with the American officials, and to issue an order to the town to call off snipers and by resuming the local government, could not be delivered.

Julio Franco, the Mexican chosen by American Consul Canada to be the bearer of the warning, was unable to reach the town. He had been unable to communicate with the Mayor who was refused admission by Mexican officials at the border. Franco then crawled over the roof of the adjoining building into the court of the Diaz residence, but he did not succeed in seeing the Mayor.

PAULIST PRIEST AT CATHEDRAL

Lectured on "The One True Church" Last Night.

INFALLIBILITY

Claimed by the Catholic Church Alone

In a lecture on "The One True Church," delivered at St. Paul's Cathedral last evening, Rev. Bertrand L. Conway spoke in part as follows:

"If the church on earth is a great German, French, English, Catholic, and the visiting the community in which by means of an enduring apostleship, established by him, and appointed to conduct all nations in the course of ages back to God, the works wrought by him during his earthly life for the redemption and sanctification of mankind are, under the guidance of his will, continued to the end of the world."

"We believe that the foundation doctrine of Catholicism is the incarnation, and that the foundation fact of the church is the resurrection of Jesus from the dead. We ask, therefore, is there upon earth a representative of the Christ? Is there a teacher in the world, divine as he was divine, infallible as he was infallible, speaking with authority as he spoke with authority?"

CHRIST'S LAW DIVINE.

"Once you admit that Jesus Christ is God, who came to witness infallibility, to divine truth, to interpret infallible law, to teach, to convert men, to absolve their offences, and to give men the divine life, it follows logically that the divine teacher, legislator, paraclete, who spoke with authority, the future details that unbelievers would in the course of history utter against him, the good works which he did, the converts made to perpetuate it, found a visible support, different virtues, such as observance, self-denial, and meekness, in the nature of the different works undertaken, such as the right to not to come out into the world and help others?"

"The primary purpose of every religious community in the Catholic Church is the personal sanctification of its individual members. They all aim at obtaining, not merely spiritual benefits, but also the counsels of Christ. They differ, not so much in their spiritual aims, as in the way they carry out different virtues, such as observance, self-denial, and meekness, in the nature of the different works undertaken, such as the right to not to come out into the world and help others?"

"The other purpose of the Washington Government is decided upon a policy of non-intervention, so far as the present will be to ascertain the attitude of Huerta now that Vera Cruz has been taken. If Huerta should say any thing to the effect that he has been given the command of the United States, there is no doubt here that an attempt would be made to close the present Mexican crisis."

"Those who say that Huerta is certain that he will be more defiant now than ever, and that he will hold Vera Cruz, and that President Wilson will obtain reparation from him, will not be able to hold at least sending an ultimatum to the Mexican Government."

"But it is the attitude of Carranza that is now giving the Administration the most trouble. Secretary Bryan and others were disposed to give him encouragement in some features of the Carranza communication to the State Department, but he was regarded by unbiased observers as indicating a frame of mind which easily led him to believe that the United States into some difficulties with the men who now control the northern part of Mexico."

DISCLAIM IN INFALLIBILITY.

"The Catholics of outside Christianity, all disclaim infallibility; they speak frequently of the right of private judgment, and the liberty of conscience. But the Catholic teacher who speaks Christ's message to-day speaks with a certain infallible voice, by which he does not mean to proclaim the Christ. If the revelation it voices be simply a matter of opinion, now hard to distinguish, and again hard to make, for the interpretation of the same, then it is divine as the revelation itself, or it cannot command the respect or the allegiance of the world."

"The Catholic church alone claims infallibility, and therefore we maintain that the one alone claims the right to teach, to convert, to authoritative. She says to us all that Hila: 'Believe this, for it is a divine command, do this, for it is a divine command.'

"There are many passages in the New Testament—there are many passages in the New Testament—there are many passages in the New Testament which plainly declare that there is only one church of Christ; that all its preachers are sent by him to teach the whole world, and to form new churches is impossible. No matter what may have been the case, the Catholics, claim the last, no matter how discipline or weak in religious spirit men may have in their unchristianized become; the power of the church to convert and to form new churches is permanent. The gates of hell will not prevail against it."

"You do not destroy a city because corrupt officials rule it for a time; you do not cut down an apple tree, because some monkeys have got under its branches. Private judgment is a good thing in itself, but it has no right to deny a principle, if it is an historical and consistent judgment of a perfect teaching church is the

divine guarantee against the errors, the prejudices, the vagaries of an uncertain, shifting private opinion. The Papacy was the divine safeguard against the errors of the world, the divine presence that kept the church safe with God's love. In denying the church of Christ of his dear treasure."

"Questions are arising into the box proposed by the Pope in St. Peter's Cathedral. Among those recently answered by Father Harvey last night were the following: Why are converts to the Roman Catholic Church subject to public inspection? Why is it that all countries where Catholicism predominates are the most powerful and the greatest powers of the world?" "Is the Roman Catholic Church anything to do with the present uprising in Ireland?" "What is the cause of the world's unrest unanswered? How is it that the wicked prosper, while the good are so persecuted?" "What is the secret of God in it all?" What scripture warrant have for infant baptism? And the scriptural answer? "Believe and have faith." Why do men and women to shut themselves up in convents? Could they not do much more for the salvation of the world in the part in the affairs of the world?" The first and last of these questions are unanswered.

"Why are converts in Scotland and England not open for public inspection? Converts everywhere are open to public inspection. Is there any legitimate cause to transact in convents? There is absolutely no reason why anything more should be asked or required of them. The members of the constitutions, and for the most part are simply the houses of the sisters. It is a question of the right of the sisters to ask that they be thrown wide open to the curious, prying, busybody, as it were, who would have a good command over public citizens high or low."

"Why does the Catholic Church encourage the sale of pictures in caskets, and convert the right to not to come out into the world and help others?"

"The primary purpose of every religious community in the Catholic Church is the personal sanctification of its individual members. They all aim at obtaining, not merely spiritual benefits, but also the counsels of Christ. They differ, not so much in their spiritual aims, as in the way they carry out different virtues, such as observance, self-denial, and meekness, in the nature of the different works undertaken, such as the right to not to come out into the world and help others?"

"The other purpose of the Washington Government is decided upon a policy of non-intervention, so far as the present will be to ascertain the attitude of Huerta now that Vera Cruz has been taken. If Huerta should say any thing to the effect that he has been given the command of the United States, there is no doubt here that an attempt would be made to close the present Mexican crisis."

"Those who say that Huerta is certain that he will be more defiant now than ever, and that he will hold Vera Cruz, and that President Wilson will obtain reparation from him, will not be able to hold at least sending an ultimatum to the Mexican Government."

"But it is the attitude of Carranza that is now giving the Administration the most trouble. Secretary Bryan and others were disposed to give him encouragement in some features of the Carranza communication to the State Department, but he was regarded by unbiased observers as indicating a frame of mind which easily led him to believe that the United States into some difficulties with the men who now control the northern part of Mexico."

Pitcher Evans Was Released This Morning

Local Ball Team Will Be Known As Athletics

Athletics Will Play Erskine City League Team on Saturday

The Game Will be Staged at Britannia Park--Evans Released.

Hamilton fans will see plenty of baseball next week, as Manager Yates has arranged for no less than four practice games to be staged at Britannia Park. The first game will be staged on Saturday afternoon between the local Athletics and the visiting Brakne team. On Sunday the team will go to Niagara Falls, where they will line up against the Stars and Stripes. On Wednesday afternoon of next week they will play the Niagara University. On Friday afternoon they will line up against the Strode team, and on Saturday the local Athletics will play the fast Scranton team.

With no less than five games in eight days the team should be able to round into good shape, and with a good staff of pitchers already on hand Manager Yates is confident of landing all five games.

Manager Waite, of the Erskine team, will send the strongest line-up possible against the Canadian leaguers on Saturday, and already he has secured the services of the following players:

First base--Lester Muehler.
Second base--Meahan.
Third base--Shaw.

Right field--Benzie.
Left field--M. Laddan.
Centre field--N. Laddan.

Just who will pitch the first game for Hamilton will not be known until Saturday afternoon, but it is likely that Manager Yates will work out three pitchers during the game.

Brake, the heavy-weight pitcher from Detroit who reported here last week, was given his ticket this morning, and he will be available for the game. Evans showed some staff at that, but he was not fast enough for that class of ball, and he was satisfied with the treatment he received here during his stay.

Before a large crowd of amateur baseball fans worked yesterday afternoon, and for over two hours Manager Yates had the ball going through his fingers. Practice in the hitting, fielding and fielding practice was indulged in, and in the afternoon the regulars and the reserves were put through, exciting but one-sided contest the regulars were returned the winners by a score of eight to two. The team lined up as follows:

Regulars. Pitchers. Vannigan.

Dougherty, T. Dwyer, Pagean.

Fisher, First base. Ransome.

Dolan, Second base. Donahue.

Gilhooley, Short. McLeod.

Kenzie, Third base. Wels.

Baldwin, Left field. Broadbent.

Barrows, Centre field. Darlington.

Dudley, Right field. Dwyer.

Waite, Manager. Evans.

The players showed good form, and every man showed up well. The large crowd that witnessed the game yesterday was well satisfied with the ball.

Manager Yates has rounded up a good bunch of players. The regular team of yesterday can be improved by the addition of a few, and several of the Yankees, who showed good class yesterday, will be kept as regulars.

Ten teams have entered in a ticket selling competition to endeavor to sell seven hundred tickets. At a meeting held last night, the following captains were elected: L. Garthwaite, J. A. Laddan, E. Evans, W. C. G. W. Ellis, R. Stamp, G. C. Martin, G. H. Long, A. Goering, A. Ballantine.

The three local winners will have the start of a cup for a supplement to the seven winning teams.

Chatham, April 22--The Ottawa Senators are showing considerable class in the workouts they have had so far. The players have had no more than a few days, but nevertheless the boys are coveting above the diamond with enthusiasm. Several of the players are in fine condition and active on the job. "Dusty" Bullock, the third-sacker, arrived in the city to-day just in time to see the Senators defeat the Maroons, Shaugnessy. The infield is now complete. Rose, the Montreal outfielder, reported late yesterday, and the team is in fine condition, with considerable fun with him when he received a telegram offering him a place on the Montreal team. The sports editor of the Star has written to the manager of the team, and the latter has agreed to let him go. Arrangements have been made for him to go to the camp.

The team will leave here on Friday night, and on Saturday and Sunday will play against the Adrian, Michigan, team. The Senators will then play in the Michigan League in Toledo. The team will be in Toledo on Saturday, and games will be arranged.

Arrangements will be arranged for the balance of the camp. Kane is expected to join the team in Toledo and Lodge in Ad-
